Since Queen Sirikit National Institute of Child Health was still under the old name “Department of Pediatrics (under Rajvithi Hospital) and Children’s Hospital”, so far the institute with prestigious recognize has worked tirelessly to lead Thai children to healthy lives. And we are much better recognized through showing potential in solving national health problems such as providing preventive measures for dengue fever, AIDS passing from mothers to babies, and severe outbreaks of SARS and bird flu.

Besides the outstanding contributions, the institute has performed as a referral center for pediatric patients caught in serious diseases at tertiary level and as a medical school committed to training in full range of medical disciplines. Also, the institute has been a center of research, development and transfer pediatric knowledge to medical personnel from hospitals countrywide, as the institute’s vision: To be Thailand’s Center of Children’s Illness.

With regard to the institute’s duties and statistic data concerning 15,000 to 20,000 admissions and more than 300,000 out patients per year, we are highly aware that to respond to the increasing demand of patients and to proceed our duties efficiently we need effective medical appliances, teaching aids as well as other facilities in order to provide medical treatment promptly. These would mean plenty more money would be spent to access the mentioned needs. Hereby, your gift of any amount will help us save children’s lives. Thank you in advance.
